REMARKS	This is UNEVALUATED Information		

1. Between 0800 and 1500 on 27 October 1954, 28 MiG-15s were observed at Deutsch Wagram airfield. There was a 3/10 overcast at an altitude of between 1,000 and 1,500 meters, a northwesterly wind of about 10 km/h, and good visibility. No flights were made. 1 A VHF antenna (umbrella-type) was located in the western section of the barracks installation. Two railroad tank cars of the Austrian railroad were seen on the spur track leading to the fuel dump. About 12 barrels lay on the ground next to the railroad cars. The western row of searchlights consisted of 4 searchlights while the eastern row consisted of 6 searchlights.

No 26 Lendler Gasse and building opposite. These buildings were apparently unoccupied.

Dump for solid fuels on Meine Strasse. There were heaps of fire wood and coal in addition to 5 motor vehicles parked under a lean-to roof.

1. Comment. The number of MiG-15s observed indicates that Deutsch Wagram airfield is still occupied by a Soviet fighter regiment.
2. Comment. For quite some time, a van-like crate has been observed in Deutsch Wagram. Crates such as this one have previously been observed both at Wiener Neustadt and Deutsch Wagram.
